A PROTEST AGAINST INTERVENTION

President Gomez of Cuba Cables President Taft That Cuba is Able to Cope With the Situation

OUR ACTION HURTS FEELINGS OF THE PEOPLE

Cuban Government Prepared to Flood Disturbed Section With Regulars and Volunteers—Offer of 500 American Cowboys Declined by Gomez—Cruiser Washington and Four Battleships Sail For Key West—Ammunition Sent.

HAVANA, May 26.—President Gomez sent a cablegram today to President Taft in which he protests against the intervention in Cuba by the United States.

Hurts Feelings of People.
"It is my duty to say that so serious a resolution alarms and hurts the feelings of a people who love and are jealous of their independence," he says, after reciting that he received from United States Minister Beaupre a note informing him that the Washington navy base and a strong naval concentration at Key West in anticipation of possible eventualities, and that in the event that the Cuban government is unable to protect American property it was the intention to land forces for that purpose.

Government Doing Its Utmost.
President Gomez says that the government is doing its utmost, respecting the four days sent 2,000 troops by land and sea to crush the rebels in Oriente and that in that short time it has restored order in all parts of the island with that exception. He also says that 9,000 rifles with ammunition have been distributed to loyal citizens and that the government is prepared to flood the comparatively small disturbed section with regulars and volunteers.

Capable of Dealing With Situation.
"I appeal to you," he continued, "as a loyal friend of Cuba, respecting her rights, that you will be convinced that this government is capable and sufficiently supported by the valor and patriotism of the Cuban people to deal promptly with a few unfortunate and misguided persons without reason or flag."

START FOR KEY WEST.
Cruiser Washington and Four Battleships Leave New York.

New York, May 26.—The armored cruiser Washington, flagship of Rear Admiral Hugo Osterhaus, commander in chief of the Atlantic fleet, and four battleships of the fourth division sailed south, supposedly for Key West, in hurry orders today, a few hours after arrival in port from Provincetown, Mass. The battleships following the flagship were the Missouri, Mississippi and Minnesota.

The gunboat Yankton accompanied the squadron to serve as a despatch boat. The battleship Delaware of the first division remained in port all day taking aboard her complement of machines and field equipment and accompanied by the hospital ship Solace were expected to sail today.

The flagship Washington and the battleships dropped anchor off the naval station at Tompkinsville, S. I., shortly after dawn today, where they are believed to have received new orders, for at about 10 o'clock residents of the island heard the rattle of the great searchlight chains and guns and in half an hour the last of the five vessels had passed out to sea. It is understood that the battleships have on board several hundred marines and that by the time they reach Hampton Roads the battleships Georgia, New Jersey and Rhode Island of the third division will be ready to join them on the trip south.

Collier Bears Stores and Ammunition.
Philadelphia, May 26.—Loaded with stores and ammunition, the collier Lebanon sailed from the Philadelphia navy yard today for Cuba. The Lebanon reached the yard last night and under rush orders from the navy department was loaded in record breaking time.

The ammunition consisted of rifle and revolver cartridges, while the stores consist of clothing and all sorts of necessities.

Nebraska Ordered to Key West.
Key West, Fla., May 26.—The battleship Nebraska arrived at San Juan today, where she was reached by wireless and ordered to Key West. She anchored in the harbor here at sundown.

Cuba Thanks United States.
Washington, May 26.—The government of Cuba has expressed through Minister Beaupre its gratitude to the United States for sending the cruiser to Guantanamo. "The thanks of the island were conveyed in a reply addressed to Minister Beaupre acknowledging the message notifying Cuba of the dispatch of the boat."

COWBOYS READY.
Five Hundred of Them Offer Services to President Gomez.

HAVANA, May 26.—Advices from the scene of the military operations in Oriente province are meagre. The troops are still engaged in carrying out the carefully laid plans of General Mendota to envelop the rebel forces, since in all sides and compel a decisive combat. In an engagement last night between regulars under Colonel Machado and a band of rebels, several of the latter were killed, two were captured and the remainder dispersed. The loss to the troops is not given.

More Troops Rushed to Front.
The Cuban government tomorrow will have fully 3,000 troops in the province of Oriente.

More troops were rushed to the front from Havana tonight and also many carloads of ammunition and a large contingent of rifles. The rifles are intended for distribution among the plantations and to loyal citizens of the many towns within the zone of the insurrection. The insurgents are reported to have adopted a flag of blue with white stripes.

United States Cowboys Volunteer.
The corps of 500 volunteers which was organized to proceed to Oriente under General Sumner has decided not to go at present. The military authorities having declared there was no need of assistance.

President Gomez has received a cablegram from the United States offering
